

**EUROPEAN TOUR 2026**

***Calle Vapor is one of Argentina's most vibrant Afro-Latin bands. With infectious energy and a sound that blends Cuban son, cumbia, bolero, and Caribbean rhythms, they transform every stage into a party. From Córdoba to the world, the group has built a solid career, with acclaimed albums and international tours that confirm their impact. Calle Vapor invites you to dance, feel the emotion, and travel through Latin music with their own powerful and flavorful style.***

**Calle Vapor** is a musical group that emerged in Córdoba, Argentina in 2006. Their repertoire features boleros, sones, cumbias, and cha-cha-cha, drawing from Latin American musical icons as well as their own compositions.

On stage, the group explores the path of Afro-Latin music and its diverse styles, always striving to discover compositions, poets, and stories that contribute to and enrich the Latin American creative process.

Throughout their musical journey, they have released 12 albums, achieving significant success in dance venues internationally in countries such as Italy, Spain, India, Dubai, Lebanon, Uruguay, Chile, Colombia, Mexico, and in major cities around the world. Calle Vapor performed in Cancún in December 2022, closing one of the nights of the World Salsa Championship, during their second tour of Mexico. For the first time, an Argentinian group participated in this event, thanks to their more than 13 years of experience in the salsa scene and, above all, the support of leading figures in the world of salsa. On this occasion, dancers and choreographers from over 40 countries attended the event. It was a beautiful night where music and dance reaffirmed their shared love for each other.

In April 2024, they completed a highly successful European tour with four sold-out concerts in Italy, Greece, and Bulgaria. The tour culminated in a spectacular performance at the closing of the *WORLD STARS SALSA FESTIVAL* for over 3,000 people in Albena, Bulgaria.

Calle Vapor features 8 musicians on stage with more than 13 instruments from different regions of Latin America and Africa, including:

CUBAN TRES, GUITARS

KEYBOARDS, PIANOS, MOOG AND BALAFON DUM DUM SYNTHESIZERS

ELECTRIC BASS

BONGOS AND COWBELL, CONGAS

TIMBALES, VIOLIN

FLAMENCO CAJON

With 13 albums released, this group continues to get people dancing in all their projects, achieving worldwide popularity with their songs:
